

Company Name: Evalueserve

Job Title: Junior Equity Research Analyst (Sell-side)

Location: Shanghai

Company Introduction:

Evalueserve is a global professional services provider offering research, analytics, and data management services across a wide range of industries and business functions. We are one of the largest and the most experienced custom research service providers in the world.

We are powered by mind+machine – a unique combination of human expertise and best-in-class technologies that use smart algorithms to simplify key tasks. This approach enables us to design and manage processes that can generate and harness insights on a large scale, significantly cutting costs and timescales and helping businesses that partner with us to overtake the competition.

Since its opening in 2005, Evalueserve China has grown strongly and has more than 340 employees today serving clients from a variety of sectors.

Key Job Responsibilities/Challenges:

The offshore analyst will support: a bulge-bracket international investment bank's equity research team with specific sector focus:

- Gathering and analyzing financial data on covered companies under specific sector from a variety of sources, including company reports, the internet, online databases and proprietary databases e.g. WIND, Bloomberg, etc.
- Updating and maintaining industry/sector databases using proprietary databases and the internet research (industry association websites, govt. websites, third-party industry data providers, etc.)
- Working on daily/ weekly/ monthly news highlights and reports (updating key charts/graphs, preparing news summary and insights)
- Performing research on companies with significant price movement, try to get key news/events leading to this movement, call company IR, if required, etc.
- Follow the earning calendar of the companies, listen and summarize earnings conference calls, and update the financial models and reports accordingly
- Building, maintaining and analyzing financial models of companies in the given industry/sector but for different markets e.g. A-share, H-share, TW, etc. Additionally, doing earnings adjustments, etc. and helping client team with publishing models.
- Writing factual sections and update content (text, tables and charts) for company and industry reports
- Helping client team on some basic admin tasks related to updating client contact details and NDR requests

Key Qualifications and Skills:

- Bachelors/Masters with a major of accounting, finance or related
- Good understanding of finance and accounting (financial statements, its inter-linkages, ratios, etc.)
- Good financial modeling and valuation skills
- High attention to details
- Good written and spoken English and Chinese skills; should be able to express thoughts in a logical and clear manner
- Relevant equity research internship or working experience
- Needs to have positive mindset, able to take complete ownership and responsibility for allocated work, willing to accept challenges, self-motivator and should have strong passion for equity research, and learning and growth
